Maloney Fruit Trees

*Enormous Reductions
That May Never Come Again*

We cannot accept orders for less than 100 trees at these low prices. Order may consist of several varieties if not less than 10 trees of a kind. If a lesser quantity is desired see our big catalog.

All trees offered except Peach budded on whole branch Rooted French Seedlings, and our Peach Pits are secured from the mountains of North Carolina. 1931 last year fruit tree seedlings will be imported.

An opportunity to buy Maloney French Rooted Trees at amazingly Low Prices.

VISIT OUR NURSERIES

You are cordially invited to visit our nurseries. We are located in the famous Genesee Country, 45 miles South of Rochester, 60 miles North of Elmira, where we grow the finest trees produced in the United States.

Send your order early so as to avoid disappointment as trees are moving rapidly and at these low prices our surplus will soon be exhausted. Then, if you wish, come at your convenience and select your own trees and we will put them aside for delivery in the Spring when desired. If it is not convenient to come or you do not care to do so our Mr. A. E. Maloney will personally select the trees for you, and we guarantee every tree will meet with your approval.

We are listing a few owners of large orchards who have Maloney Trees. Write them about our stock.

MALONEY'S TREES—20 acre apple orchard composed of equal parts Stayman, Rome, McIntosh and Baldwin planted as one year whips in the spring of 1917. Planting arranged on a corner of 20 foot square with fillers to be removed when necessary. Fillers removed in the winter of 1928-29, leaving permanent trees on the corner of 40 foot square with semi-permanents in the center of the square, which probably will remain until the winter of 1933. Stayman, Rome and McIntosh have been in heavy bearing since the 1926 crop. Baldwins have been in light bearing since 1926 crop.

Amherst, Mass.
Oct. 6, 1930.

To whom it may concern:

I have examined for trueness to name all the standard apple stock now growing in the nurseries of Maloney Bros. Nursery Company and all trees as they stand in the nursery row are, to the best of my knowledge and belief true to name.

J. K. SHAW, Research Professor of Pomology.
Maloney Bros. Nursery Co., Inc.

STATEMENT OF CERTIFICATION, OCT. 6, 1930
TO FRUIT GROWERS:

Several thousand one and two-year-old apple trees were certified as true to name during the summer of 1930, by this Association for Maloney Bros. Nursery Company of Dansville, New York. This certification was in charge of Dr. J. K. Shaw of the Massachusetts Experiment Station, our agent for certification.

A printed label is attached to each and every certified tree bearing the name of the variety and our stamp of certification as being true to name.

Trees of the varieties starred were certified in 1930 for Maloney Bros. Nursery Company of Dansville.

THE MASSACHUSETTS FRUIT GROWERS
ASSOCIATION

SATISFACTION GUARANTEED

We guarantee every Tree, Plant or Vine sold by us to be strong, vigorous and healthy, and to arrive in good condition. If for any reason you are not absolutely satisfied with your stock when it is received, advise us at once, and we will gladly replace the items or refund your money.

Maloney's Trees are True-to-Name—No human caution could be more exacting than ours. If any trees prove untrue to name, upon proper proof we will replace or refund the purchase price.

Big Bargains also in Berries, Grapes, Ornamentals, Shrubs, Roses, Perennials, etc. Write for free catalog illustrating many varieties in natural colors.

Maloney's own one of the three steam power diggers in the United States. Trees dug the Maloney way by steam power insures the finest root system obtainable whereas trees dug by horse power are subject to tops and trunks being injured by horses crowding the row, resulting in many one sided heads. Not so when digging by steam for the ropes lay on the ground, thus protecting both top and trunk from injury.
